

Safe Routes to School Program, Mount Pleasant

Project Description

The Mount Pleasant Safe Routes to School Project will identify safe routes to school, needed improvements and a detailed implementation plan. Shoemaker & Haaland partnered with Southeast Iowa Regional Planning Commission, Schools, and the City to develop this project, which is currently underway.

Project Features

- Workshops with schools, city and community
- Thorough mapping and analysis of traveled routes, trail system, schools and related areas
- Identify un-safe areas and needed improvements
- Write summary justifying needed improvements
- Develop opinion of costs for improvements
- Provide phased implementation plan
