

# Trails Master Plan, Washington County, Iowa

## Project Description

- Worked with Washington County Staff and other members of the Trails Steering Committee on project approach, identifying stakeholder groups and establishing priorities and overall project goals
- Led public meetings to gather input, identify issues, and develop support for the project
- Evaluated existing right-of-way partnership opportunities, conducted a 'windshield survey' of potential trail routes, and coordinated with other existing and planned trails in the region
- Developed typical trail cross-sections for different trail types and locations
- Created the Trails Master Plan that documented public input, identified preferred trail alignments, opinion of construction costs and phased implementation strategy
